Experienced Frontend Developer

Experienced software professional with about three years of expertise in Angular development. Proficient in frontend optimization, API integration, and state management, with a strong focus on building scalable, high-performance applications. Adept at improving UI responsiveness, enhancing user experience, and collaborating with cross-functional teams to deliver seamless, maintainable web solutions.

WORK EXPERIENCE

Knack Systems   **01/2025 - Present**
Associate Consultant

- Led frontend development efforts, leveraging Angular best practices such as OnPush change detection, lazy loading modules, and dynamic component rendering to enhance UI performance and maintainability.
- Collaborated with backend teams to integrate APIs efficiently using Angular's HttpClient module with interceptors for authentication and error handling, ensuring seamless data exchange and minimal latency.
- Leveraged RxJS operators such as switchMap, concatMap, and debounceTime to streamline API calls and manage real-time data streams effectively and optimized state management with NgRx

Walking Tree Technologies   **06/2024 - 07/2024**
Software Engineer

- Successfully adapted to a new work environment, quickly learning and applying company-specific Angular best practices, including custom directives, state management with NgRx, RxJS for reactive programming, and Angular CLI for project automation.
- Worked closely with cross-functional teams including designers, backend developers, and QA engineers to deliver high-quality, scalable web applications, ensuring seamless integration and optimal performance.

Cognizant Technology Solutions   **11/2021 - 03/2024**
Programmer Analyst

- Designed and built dynamic web applications using Angular, implementing key features such as routing, forms, and component-based architecture to ensure high performance and user-friendly interfaces.
- Integrated and managed RESTful APIs for seamless communication with backend services, utilizing Angular services and HTTP client modules for efficient data handling.
- Enhanced application performance by employing Angular features like lazy loading, AOT compilation, and optimized change detection strategies, resulting in faster load times and improved user experience.

EDUCATION

B.E in Specialization in Electronics and Communication Engineering
UIET, Panjab University   Chandigarh

SKILLS

HTML, CSS, JavaScript, Angular.js, React, C++, Python, Object Oriented Programming, Data Structures and Algorithms, MySQL, Git, GitHub, Bootstrap, VS Code, Observation, Decision Making, Communication, Multi-tasking, Jira, Angular, State Management, NgRx, RxJS
